

Interested in Condominium Developments?

With data on over 17,000 condo buildings across Ontario, MPAC products have the unique ability to provide essential information to identify specific development types, reach new client groups, increase individual customer engagement at the unit level, or plan expansion initiatives by understanding targeted development types. MPAC is a reliable source to uncover insights relevant to entire developments or individual condo units of interest.

REAL DATA REAL RESULTS

MPAC has one of the most detailed databases in the world. Our condo development database is used across industry by financial institutions, energy and telecommunication utilities, insurance companies, realtors, provincial and federal agencies, planning consultants, and other private and public sector organizations.

Some of our most popular data elements include:

Year Built

Number of Units

Location

Design Type

Custom Geography Analysis

Let us help you!
